No Need to Have Multiple Machines to Secure Your Procona® Containers.

The DF35FS Strapping Machine is an efficient, easy to use automatic strapping machine designed to secure Procona® containers for shipment. What makes this machine unique? The DF35FS is a collar insert machine and strapping machine rolled into one! Equipped with a foot pedal to operate pneumatically controlled arms that fold the cardboard carton collars around the Procona® floral container, the operator manually inserts the ventilated lid and straps the container. The DF35FS is the perfect strapping machine for any size floral warehouse, whether you are securing small Procona® containers for local deliveries or larger containers for worldwide shipments this is a MUST HAVE machine for your application.

At A Glance
