

DF207S

Semi-Automatic Stainless Steel Strapping Machine

The DF-207S is a stainless steel semi-automatic strapping machine manufactured for the use in harsh packaging environments; ideal for meat, seafood and agricultural packaging applications. This machine features an easily adjustable table height as well as an energy saving design that shuts down the main motor when there is no package to be strapped.

FEATURES

- Stainless steel, side seal design; ideal for meat, seafood & agricultural industries
- Equipped with corrosion retardant component parts; ideal for salt water and wet environments
- Easily adjustable table height
- Equipped with tri-level strap insertion
- Internal dispenser; minimizes required floor space and protects strapping in wet environments
- External electronic tension control
- Energy saving feature; motor automatically shuts down when machine is not in use
- Adjustable tension range
- Casters allow for easy mobility
- Utilizes 3/8" or 1/2" strapping
- Six month warranty on parts

TECHNICAL SPECIFICATIONS

Width:	39.4" (1000mm)	Weight:	209 lbs. (94.8 kg.)
Length:	23.6" (600mm)	Cycle Time:	2.0 sec.
Height:	32.6" (828mm)	Tension:	7 - 120 lbs. (31.1 - 533.7 N.)
Table Height:	32.8" - 34.0" (833mm - 836mm)	Voltage:	120 Volts
